

THE BIG PICTURE

SINGLE PAYER HEALTH CARE REVOLUTION

CURRENT

CALTCHA

Universal fear and insecurity with more than 30% without useful coverage in CA	Universal peace of mind and security with a smart ID card CA access
Medical illness, income based, service model	Public health and wellbeing, society-wide care model
Narrow doctor network and changing providers	Free Choice of any CA licensed health provider
Consistent experience of care denial	Comprehensive health and dental care guaranteed
\$11,000 per person average cost plus copays and deductibles –expanding privatization & surprise billing (Cadillac to junk-yard care)	No out of pocket costs, premiums, or co-pays with small public tax coverage system for top tier care for all
Over 20% wasted overhead and administrative costs	Less than 5% overhead and administrative costs - \$ Billions saved!!
Long Term Care, poverty required, institutional segregation	Life Time care individual planning, no segregation.
Major medical, dental and nursing student tuition cost and debt	All post secondary Health care education student tuition & cost free; larger, diverse health workforce
Class, caste, language and race bias leading to health disparities among marginalized communities	System designed centered with focus on social determinants of health and community input

Hard to access hospital empires, with health service deserts everywhere	Local decentralized health care settings with home and neighborhood services everywhere
Token, uncoordinated, underfunded or absent services	Customized school, mental health, disability, agricultural, incarceration service models
Corporation owned and ruthless profit; Medical wealth transfer tyranny	The public (people) and Public Health will own and decide the care model with democratic participation and planning
Job lock with mind numbing work for micro coverage	End “job lock” and expand entrepreneurial economy
41 million unpaid family caregivers of dependent loved ones	Liberate millions of unfunded caregivers
Millions of unnecessary administration workers	‘A Just transition’ over 5 years for unneeded workforce
\$80 billion personal and family medical debt burden	Buy out all personal and family medical debt
Everything else that hurts and humiliates you	Everything else we forgot
